

# "This radio... is everything we are looking for."

—Major, U.S. Army

The Harris AN/PRC-117G  
enables wideband-networked  
joint operations.

Enhance situational awareness  
of dismounted troops

Stay connected with  
on-the-move communications

Direct intel assets  
with real-time feeds

Share biometric data when  
and where it's needed

The action won't pause while communications catch up.  
Today's joint missions demand reliable access to secure networks, including voice, video, and data in real time. With the Falcon III® AN/PRC-117G, Harris delivers on the promise of JTRS today.
