**THE CHALLENGE FOR DEFENSE FORCES WORLDWIDE:**

The need for reliable, highly secure, networked communications that provide combat units on the move with mission situational awareness and interoperability with allied forces.

**THE HARRIS SOLUTION:** Harris anticipates customer needs and invests internal engineering and R&D resources to develop and ship "radios of the future" today (including JTRS-compliant radios). This speed-to-market approach is successfully placing mission critical communications technology into the hands of U.S. and allied defense forces far in advance of traditional government procurement methods.

*"Any piece of equipment with the Harris tag on it worked superbly."*
