

Daniel R. Pearson

Daniel R. Pearson is executive vice president and chief operating officer of Harris Corporation. In this role, Mr. Pearson has responsibility for the primary day-to-day business operations of the company. He oversees the company's government businesses, information technology, healthcare solutions, cyber solutions, Middle East operations, supply chain management and operations, and security.

Most recently, Mr. Pearson was group president of Harris Corporation's Government Communications Systems Division. Before that, he was group president of Harris Defense Communications and Electronics business unit. Prior to that, he was president of the company's Department of Defense Programs business unit. Before being named president of Network Support Division in 2000, he served as vice president and general manager of Strategic Management and Business Development for GCSD. He joined Harris in 1977.

Mr. Pearson holds a bachelor of science degree in electrical engineering from the University of Pittsburgh.

He is a member of the Air Force Association (AFA), the Aerospace Industries Association, the Armed Forces Communications and Electronics Association (AFCEA), the Association of the United States Army (AUSA), the National Defense Industrial Association (NDIA), and the Security Affairs Support Association (SASA).

Harris is an international communications and information technology company serving government and commercial markets in more than 150 countries. Harris is dedicated to developing best-in-class *assured communications*[®] products, systems, and services.
