

Welcome to SilverScriptSM Insurance Company

You can begin using your prescription benefits immediately. Below is a temporary membership card that you can print out from your computer and use right away.

NOTE: If you use your card before your effective date or if your enrollment is NOT approved by Medicare we may bill you for the amount we have paid for any prescriptions you have received.

Remember, this is just a temporary card to use until your permanent card is received.

1. To begin using your card, follow these easy steps.
2. Print out your card.
3. Fill in the blanks on your card.
The RxGrp information and your ID number can be found on the top right corner of the Acknowledgement letter we recently sent you.
4. Cut out your card.
5. Fold for convenience and you're ready to go.

Your card now contains all the necessary information your pharmacist needs to fill your prescriptions. You will also need information from this card to request a prescription refill from the Caremark mail service pharmacy.

Present this card to your retail pharmacist with your prescription. You may fill your prescription at any of our 62,000 participating network pharmacies nationwide. To find a network pharmacy, log on to **harris.silverscript.com** and click on the *pharmacy locator* button. Remember, always use a network pharmacy for complete coverage. You may use an out-of-network pharmacy for emergencies, but coverage is dependent on review and in some cases, we may not pay for your prescriptions.

For questions or more information, contact Customer Care at the number on the back of your card. Give them a call. They are there to help!
