

CPDLC SERVICES

DCL Services available at 61 U.S. Airports.

En Route KUSA services deploying
2018- 2019.

DO

- > Independently review, concur, and respond to all CPDLC messages.
- > Select LOAD prompt to insert the route amendment into the FMS, confirm and verify the route amendment is acceptable via SOP's, then ensure cleared route is the active flight plan in the FMS.
 - En Route: Manually load Arrival/Transition if instructed
 - DCL: Confirm SID/TRANSITION from CPDLC clearance message and verify Runway
- > If STANDBY selected follow with a ACCEPT/REJECT or WILCO/UNABLE response.
- > CPDLC En Route Pilot Request: Direct To Fix, Altitude requests, lost comm VOICE CONTACT, Emergency messages

DON'T

- > Don't use REQUEST CLEARANCE feature via CPDLC unless required for operational reasons. All Initial DCL's are sent to the aircraft automatically.
- > Don't use ACARS ATS to request Departure Clearance
- > Don't use free text for CPDLC messaging.
 - Exception – Free Text is allowed for Emergency Messages

During roll-out, to receive En Route CPDLC services, logon to KUSA:

- > After take-off, if CPDLC service disconnects when departing from a CPDLC airport
- > After take-off or on the ground if adequate datalink coverage is available, if departing from a non-CPDLC airport
- > Per SOP, when entering US-domestic airspace from adjacent external facility

**ALWAYS CLARIFY CLEARANCE VIA
VOICE IF THERE IS CONFUSION**
