**Group Communications Services on iOS™**

BeOn®

**Status Bar**

The Status Bar acts as an on-screen PTT button. It displays the group or user currently selected for the next call when PTT is pressed, as well as the last call transmitted or received. The color of the Status Bar changes based on the current activity:

- Blue background indicates “idle” mode (i.e., no active call).
- Yellow background indicates outgoing calls.
- Green background indicates incoming calls.
- Red background indicates distress.

**Icons**

1. Displays the Satellite view of the map
2. Displays the Hybrid view of the map
3. Displays the Street view of the map
4. Displays the PTT Button view of the map
5. Displays the PTT List view of the map
6. Displays the PTT Group view of the map
7. Displays the PTT Group List view of the map

**Icons (continued)**

- Displays the Satellite view of the map
- Displays the Hybrid view of the map
- Displays the Street view of the map
- Displays the PTT Button view of the map
- Displays the PTT Group view of the map
- Displays the PTT Group List view of the map

**Alert Tones**

- Incoming Group Call: 1 long high frequency tone
- Incoming Individual Call: 2 short high frequency tones
- Outgoing Group Call: 1 long low frequency tone
- Outgoing Individual Call: 2 short low frequency tones
- Distress (supervisor): 3 short high frequency tones
- Distress (non-supervisor): 2 short low frequency tones
- Incoming Text: 1 long high frequency tone
- Outgoing Text: 1 long low frequency tone
- Distress (supervisor): 3 short high frequency tones
- Distress (non-supervisor): 2 short low frequency tones
- Inactive: 1 long high frequency tone
- Inactive: 2 short low frequency tones
- Busy: 1 long low frequency tone
- Busy: 2 short high frequency tones

**Quick Guide**

1. Select BeOn from the device’s main display. If prompted, enter your PIN and tap Unlock.
2. Enter your password on the Network Sign In screen. Select Save Password to skip this in the future. Tap Sign In.

**Simple Display**

**Sample Display**

**Status Bar**

The Status Bar acts as an on-screen PTT button. It displays the group or user currently selected for the next call when PTT is pressed, as well as the last call transmitted or received. The color of the Status Bar changes based on the current activity:

Transmit a Group Call
1. Tap a call record from the History screen and select Next Call. 
2. Tap and hold the Status Bar, or tap and hold the PTT button on the Home screen. 
3. When finished, release PTT.

Receive a Group Call
1. Tap on a group in the Groups screen and select Send Text. 
2. The message window opens. 
3. Enter a message, up to 214 characters. 
4. Tap Send.

Receive a Text Message
1. In the top of the display indicates unread BeOn notifications, such as text messages, distresses. 
2. Tap the icon and drag down.
3. Select the Text Message under Notifications.

Disabling
When the scanning is disabled, only the selected group will be monitored by the BeOn application.

**Enable Scanning**
When scanning is enabled, all the groups in the currently active profile are monitored by the BeOn application.

**Clear Distress**
Only a supervisor can clear a distress for a group.

**Geographic Mapping**
BeOn utilizes Google Maps™ as part of its situational awareness capabilities. For detailed information, refer to http://pspc.harris.com/Solution/BeOn.aspx for detailed evaluations on mapping contacts and groups.
