Transmit a Call

1. Press the selected system and channel.
2. Press the Monitor/Clear button briefly. If audio is heard or the LED is illuminated, then the channel is busy.
3. When the channel becomes available, press the PTT button and speak normally while holding the microphone approximately two inches from your mouth.
4. Release the PTT button when finished speaking and wait for a reply.

Receive a Call

1. Select a conventional system and channel or turn Scan on and make desired channels in Scan.
2. When the radio receives a call, the radio unmutes and the channel name or number appears in the display.
3. Press and hold the Clear/Monitor button, then simultaneously press the emergency button to clear an emergency if enabled through programming.

Declare an Emergency

1. Press and hold the red Emergency/Home button.
2. ^ and Ø are illuminated in the display and flashes in the display. After 2-3 seconds, ^ turns off.
3. ^ and Ø remain illuminated in the display until the emergency is cleared.
4. Press the PTT button and ^ reappears. Speak normally.
5. Release the PTT button when transmission is complete. Press and hold the Clear/Monitor button, then simultaneously press the emergency button to clear an emergency if enabled through programming.

For more detailed operating information and a list of options and accessories, refer to Operator’s Manual 4421-1100-2010; available online at www.pspc.harris.com.
