

# DISRUPTOR SRx™

## SMALL FORM FACTOR ELECTRONIC WARFARE

**DETECT. DEFEND.  
DISRUPT.**

### BENEFITS

Multi-functionality to meet all mission needs

Reconfigurable for manned and unmanned, air, sea and land platforms

Streamlined platform maintenance and upgrades

Lower lifecycle costs

Enhanced capability with reduced size, weight and power

The Disruptor SRx represents the next generation of electronic warfare with a multifunctional smart sensor that reacts and adjusts to complex electronic warfare missions. Enabled by advances in microelectronics, the Disruptor SRx increases capability while decreasing size, weight, power consumption and cost.

### DISRUPTOR SRx™

In today's environment of increasingly sophisticated threats technology must rise to meet the challenge. Adaptability and functionality of platforms, missions and domains are key to success. The traditional model of one system versus one threat is changing, and complex missions call for smart systems that address multiple threats and provide the warfighter with greater situational awareness. The Disruptor SRx meets these needs and much more.

The Disruptor SRx can be reconfigured to meet the demands of a variety of air, sea and land platforms. Disruptor SRx supports a range of electromagnetic spectrum frequencies which enables a more rapid turnaround time to complete critical missions. The software programmable "system on a chip" solution can be configured to address more missions than ever before and is easily upgradable – providing greater flexibility and affordability.

**BENEFITS CONTINUED**

Independent radio frequency (RF) channels for identification and response

Reprogrammable Software, Firmware, and MDF

Performance is configurable

Modular and scalable design

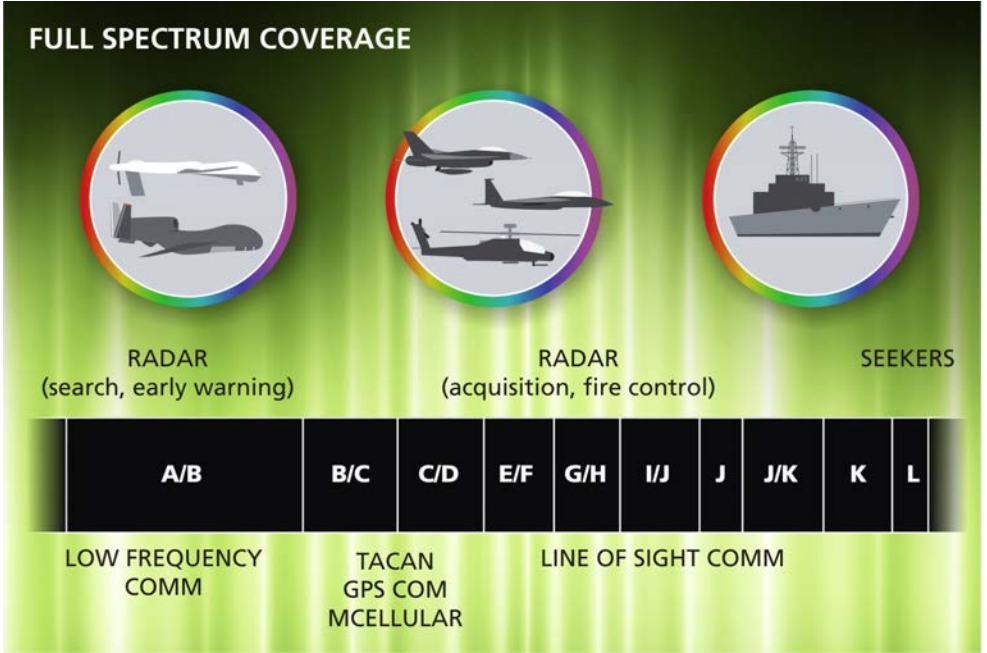

Disruptor SRx is a new generation of small form factor EW technology that packs capabilities of current cutting-edge EW systems into a module that fits in the palm of your hand.

**About Harris Corporation**

Harris Corporation is a leading technology innovator that creates mission-critical solutions that connect, inform and protect the world. The company's advanced technology provides information and insight to customers operating in demanding environments from ocean to orbit and everywhere in between. Harris has approximately \$7.5 billion in annualized revenue and supports customers in about 100 countries through four customer-focused business segments: Communication Systems, Space and Intelligence Systems, Electronic Systems, and Critical Networks.

# DISRUPTOR SRx™

Disruptor SRx increases capability while decreasing size, weight, power consumption and cost. The multi-functionality of the Disruptor SRx reduces lifecycle costs by providing a single hardware solution that is configurable across multiple mission areas.

**PHYSICAL CHARACTERISTICS**

**Form Factor 1**

- Length: 3.0" (76.2 mm)
- Width: 1.0" (25.4 mm)
- Height: 1.0" (25.4 mm)
- Weight: 0.35 lbs. (0.16 kg)

**Form Factor 2**

- Length: 4.0" (101.6 mm)
- Width: 2.0" (50.8 mm)
- Height: 0.9" (22.9 mm)
- Weight: 1.0 lbs. (0.45 kg)

**Form Factor 3**

- Length: 4.0" (101.6 mm)
- Width: 2.0" (50.8 mm)
- Height: 1.5" (38.1 mm)
- Weight: 1.6 lbs. (0.73 kg)
