President and Chief Executive Officer
Forward looking statements

Statements in these presentations that are not historical facts are forward-looking statements that reflect management's current expectations, assumptions and estimates of future performance and economic conditions. Such statements are made in reliance upon the safe harbor provisions of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements in these presentations include but are not limited to statements concerning: the company's plans, strategies or objectives for future operations or results; new products, services or developments; future economic conditions, performance or outlook; the outcome of contingencies; the company’s beliefs or expectations; activities that the company intends, expects, projects, believes or anticipates will or may occur in the future; the potential value of contract awards; potential orders, contract opportunities or awards; statements regarding outlook, including guidance or expectations for revenue, earnings, margins or cash flow for the company and its business units; plans to divest Broadcast Communications; and assumptions underlying any of the foregoing. Forward-looking statements may be identified by use of words such as "believes," "expects," "may," "should," "would," "will," "intends," "plans," "target," "forecast," "estimates," "anticipates," "projects," or similar words or expressions. The company cautions investors that any forward-looking statements are subject to risks and uncertainties that may cause actual results and future trends to differ materially from those matters expressed in or implied by such forward-looking statements. The company's consolidated results and the forward-looking statements could be affected by many factors, including but not limited to: the loss of the company’s relationship with the U.S. government or a shift in U.S. government funding; potential changes in U.S. government or customer priorities or requirements (including potential deferrals of awards, terminations, reductions of expenditures, changes to respond to the priorities of Congress or the Administration, budgetary constraints, debt ceiling implications, sequestration or cost-cutting initiatives); risks inherent with large long-term fixed-price contracts, particularly the ability to contain cost overruns; the potential impact of a security breach, through cyber attack or otherwise, or other significant disruptions of the company's IT networks and systems or those the company operates for customers; financial and government and regulatory risks relating to international sales and operations; the continued effects of the general downturn in the global economy and U.S. government's budget deficits and national debt; the ability to continue to develop new products that achieve market acceptance; the consequences of future geo-political events; strategic acquisitions and the risks and uncertainties related thereto, including the ability to manage and integrate acquired businesses; performance of subcontractors and suppliers; potential claims that the company is infringing the intellectual property rights of third parties; the successful resolution of patent infringement claims and the ultimate outcome of other contingencies, litigation and legal matters; risks inherent in developing new technologies; changes in the company's effective tax rate; the potential impact of natural disasters or other disruptions on the company’s operations; the potential impact of changes in the regulatory framework that applies to, or of satellite bandwidth constraints on, the company’s managed satellite and terrestrial communications solutions; the timing and impact of anticipated dispositions of the company’s Cyber Integrated Solutions operation and Broadcast Communications business; the timing and amount of anticipated gains, losses, impairments and charges related to such dispositions; and changes in future business or other market conditions that could cause business investments and/or recorded goodwill or other long-term assets to become impaired. Further information relating to factors that may impact the company's results and forward-looking statements are disclosed in the company's filings with the SEC. The forward-looking statements contained in these presentations are made as of the date of these presentations, and the company disclaims any intention or obligation, other than imposed by law, to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
