Annual Meeting of Shareholders

William M. Brown
Chairman, President &
Chief Executive Officer
Forward-looking statements

Statements in this presentation that are not historical facts are forward-looking statements that reflect management's current expectations, assumptions and estimates of future performance and economic conditions. Such statements are made in reliance on the safe harbor provisions of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements in this presentation include but are not limited to: earnings, revenue, operating margin, free cash flow, tax rate and other guidance for fiscal 2015; potential contract opportunities and awards; the potential value and timing of contract awards; the value of opportunity pipelines; and statements regarding outlook, including expected revenue, orders, cash flow, share repurchases and dividends and potential growth and expansion. The company cautions investors that any forward-looking statements are subject to risks and uncertainties that may cause actual results and future trends to differ materially from those matters expressed in or implied by such forward-looking statements. The company's consolidated results and the forward-looking statements could be affected by many factors, including but not limited to: the loss of the company's relationship with the U.S. Government or a reduction in U.S. Government funding; potential changes in U.S. Government or customer priorities and requirements (including potential deferrals of awards, terminations, reductions of expenditures, changes to respond to the priorities of Congress and the Administration, budgetary constraints, debt ceiling implications, sequestration and cost-cutting initiatives); the potential impact of a security breach, through cyber attack or otherwise, or other significant disruptions of the company’s IT networks and systems or those the company operates for customers; risks inherent with large long-term fixed-price contracts, particularly the ability to contain cost overruns; financial and government and regulatory risks relating to international sales and operations; the continued effects of the general weakness in the global economy and U.S. Government’s budget deficits, national debt and sequestration; the company’s ability to continue to develop new products that achieve market acceptance; the consequences of future geo-political events; strategic acquisitions and the risks and uncertainties related thereto, including the company’s ability to manage and integrate acquired businesses; performance of the company’s subcontractors and suppliers; potential claims that the company is infringing the intellectual property rights of third parties; the successful resolution of patent infringement claims and the ultimate outcome of other contingencies, litigation and legal matters; risks inherent in developing new technologies; changes in the company’s effective tax rate; the potential impact of natural disasters or other disruptions on the company’s operations; the potential impact of changes in the regulatory framework that applies to, or of satellite bandwidth constraints on, the company’s managed satellite and terrestrial communications solutions; and changes in future business or other market conditions that could cause business investments and/or recorded goodwill or other long-term assets to become impaired. Further information relating to factors that may impact the company's results and forward-looking statements are disclosed in the company's filings with the SEC. The forward-looking statements contained in this presentation are made as of the date of this presentation, and the company disclaims any intention or obligation, other than imposed by law, to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.
